

## G-Touch Table Series

*Collaboration Innovation*

### learning through gamification

A great addition to any Nursery, Key Stage 1 or 2 classroom. We have the solution.

Engage pre-schoolers and inspire fun learning with subject specific content students learn through Gamification creating an environment that encourages student Collaboration and team building.

The G-Touch table range comes in 32 inch and 42 inch screen sizes, they all with a built-in PC and can be used in a table format by moving it into a horizontal position, allowing more students to interact together around the table.

Alternatively, the table can be tilted through 75 degrees before being locked in place to enable students to use it more comfortably sitting down or if they are playing on their own.

With the Hi-Lo version of our 42" Junior touch table you have the capability to raise the height of the table to allow for larger students or for wheelchair access.

Content includes numeracy, literacy, creativity, letter formation, music, art and much more. It is also a great teaching tool to encourage children to socialise, learn to take turns, work together, share and communicate.

#### BUILT-IN PC

A fully built-in PC is included on all G-Touch Tables. Saving you having to connect to external computer devices for uploading and displaying content. Simply press the power button and you're ready to go!

#### LOADED WITH SOFTWARE

Being a full solution for the classroom, every G-Touch Table comes equipped with various educational software packages catered to the appropriate key stage. Includes Learn Hub, Early Years, Microsoft Surface & Yellow Door.

#### TILTING AND LOCKABLE SCREEN

The G-Touch Tables can be tilted through 75 degrees before being locked in place. Making both viewing and touch more comfortable for children using it.

#### LOCKABLE SAFETY WHEELS

Lockable wheels support easy and safe use within the classroom environment and allow multiple users to work safely on any G-Touch Table at the same time.
