

Screen turns 90° into a flat surface

Electrically height adjustable

## PRODUCT DETAILS

# Switch 90

### Overview

S<sub>witch</sub> 90 takes interactive screens to the next level as they electronically move through 90° to become a touch screen table. Each unit is electrically height adjustable to suit all user height preferences.

The mobile trolley also features secure storage space beneath the screen and can be configured to your requirements with customisable connectivity inputs and a range of colour options.

### Features

- Storage space beneath the screen for PC
- Steel construction and drill-resistant locks
- Up to 800x500 VESA / 90kg screens
- Wide range of standard paint finishes

### Benefits

- Electronically moves through 90° to become a touch screen table.
- Electrically height adjustable to suit all user height preferences, enabling Equality Act compliance.
- High quality castors enable easy room-to-room transportation. Able to fit through a standard doorway.
- Ideal for flexible spaces; can be utilised as digital signage, wayfinder point, traditional screen trolley or as a touch screen table.
- Seamless AV/IT integration (PCs / control panels *Extron, Crestron* / wireless connectivity devices / network receivers / digital media players etc.)
