Other Features

Easy Installation

Installation of the Fine Pitch LED Presentation Video Wall is quick and easy thanks to its light and compact design. Unlike other LED Video Walls this solution is a complete out-of-the-box display so assembly is much easier than usual. It also comes fully colour celebrated.

**Total Installation
in 3 hours!!**

Powerful Integrated Soundbar

The display features two 15W high quality integrated speakers, adding crystal clear audio to the stunning visuals for a truly immersive experience. Finely tuned by sound engineers the speakers are ready to go out of the box. Integrated neatly into the screen the speakers offer an impressive listening experience.

Enhanced Durability & Optical Protection

Flip Chip COB technology provides increased resistance to impact and everyday contact, while the advanced optical film coating delivers softer, more comfortable viewing and helps reduce visible moiré patterns.

**Increased
Surface
Protection**

**Reduced Moiré
Effect**

Adjustable Brightness

The Fine Pitch LED Presentation Video Wall is bright enough for all ambient lighting conditions, but the screen can be adjusted manually to suit user preferences. If your conference or meeting room is quite dark then you can reduce the backlight brightness to improve overall readability.

Easy Access Ports and Controls

With a near invisible bottom control bar, easy access is granted to a front facing ports and controls while other AV ports are easily accessed at the rear of the display.

Wireless Mirroring

During meetings or presentations you can wirelessly mirror and file share between your devices and the display. Featuring easy access front ports for connecting your laptop, remote video conferencing and multi-window splicing for maximum user engagement.

Lightweight and Slim Design

Despite their large scale, the Fine Pitch DV-LED Video Walls feature an ultra-slim 31mm display depth and a total wall-mounted profile of just 62mm. Their lightweight cabinet also helps reduce stress on the mounting wall.

31mm Screen Depth

Wide Viewing Angle

Thanks to the LED technology these displays provide fantastic image quality with a remarkable viewing angle of 170°.

Warranty	Warranty Period	3 Year Warranty
	Technical Support	Lifetime

Why Choose Our Commercial Display Solutions?

Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

On-site Support and Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended Warranty*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.
