

ACOUSTIC CEILINGS

Breeze Baffles

Acoustic ceiling baffles

Breeze ceiling baffles are an ideal solution to manage reverberation across large open-plan spaces creating a more comfortable acoustic environment. The acoustic ceiling baffles are designed to be suspended vertically and come in a range of shapes, sizes and colours to suit any design and complement client branding allowing you to transform a ceiling.

FEATURES

- ▶ Available in 12mm and 24mm thickness
- ▶ Made using GRS-certified fibres containing 99% recycled content
- ▶ No formaldehyde binders
- ▶ Low VOCs
- ▶ LBC Red List Free
- ▶ Created in-house delivering fast lead times and complete creative control
- ▶ Exciting range of designs provides visual interest to ceilings
- ▶ Not affected by moisture, mould or mildew
- ▶ Lightweight for easy installation
- ▶ Comes with aluminium channels pre-fitted
- ▶ Easily retro-fitted to ceilings
- ▶ EN 13501-1:2018-B, s1, d0; ASTM E84 -16 - Class A
- ▶ BIM files available to download from www.allsfar.com

Care Instructions

Our products are extremely durable and require little attention to maintain their good looks. Light dusting on a regular basis will prevent dust build up and most marks can be cleaned with a mild detergent solution followed by rinsing and blotting. Stains should be dealt with according to the chart below.

Before carrying out a proposed cleaning method, apply to a concealed section to ensure it will not affect the product or adhesive. Avoid cleaning methods that create severe abrasion. NB: Solvent and mineral based cleaners should be used sparingly to avoid possible degradation of the adhesive adhering the product to the substrate.

Professional Cleaning Methods

Stain	Treatment Guide
Blood	A, C
Burn/Scorch Mark	K
Chewing Gum	I, B, D, C
Chocolate	B, D, C
Cooking Oils	B, D, C

Sauces	B, C, D
Shoe Polish	B, C, D
Urine	A, C
Vomit	A, C, D
Wine	A, Add Salt, C

Key

- A** Mop up excess as soon as possible with a sponge or cloth.
- B** Remove surplus with a knife edge or appropriate instrument.
- C** Sponge with a solution of carpet shampoo working from well outside the stain in a circular motion towards the centre (this avoids spreading the stain). Sponge afterwards with clean warm water and mop excess moisture with a clean dry cloth or sponge. Allow to dry then brush gently with a soft brush. If any stain remains, sponge with a solution of one part household bleach to six parts clear water. Thoroughly rinse after treatment.
- D** Lightly sponge with household dry cleaning fluid and blot. Apply sparingly, as the substance may have an adverse effect on the adhesive.
- E** Sponge with methylated spirits and blot dry.
- F** Lubricate the stain with glycerine or petroleum jelly.
- G** Apply nail polish remover. The nail polish remover should not include lanolin or be of a greasy nature.
- H** Sponge with turpentine (or substitute).
- I** Freeze with ice cubes and scrape away while cold.
- J** Clean with regular extractive carpet cleaner (if possible).
- K** Use circular cutter and remove damaged portion. Re-glue new piece into place.

Please contact us for a detailed installation guide.
