

ACOUSTIC BIOPHILIA

Grove Acoustic trees

We're great believers in the positive impact of biophilic design and are always looking for creative ways to connect the built environment to nature through our products. Our acoustic tree allows you to bring a little of the outside in, no matter how small your space. With an innovative design made from 60% recycled PET, it's visually striking, light and easy to move around.

FEATURES

- ▶ 12mm PET felt
- ▶ Designed and manufactured in the UK
- ▶ Made using GRS-certified fibres containing 99% recycled content
- ▶ Manufacturer's 5 year guarantee
- ▶ No formaldehyde binders
- ▶ Low VOCs
- ▶ Available in over 40+ nature inspired colours
- ▶ Innovative sliding design means it's light and easy to move around
- ▶ Helps to absorb noise in even the smallest of spaces
- ▶ Ideal for use in offices, meeting rooms, reception areas and break-out spaces

Care Instructions

Our products are extremely durable and require little attention to maintain their good looks. Light dusting on a regular basis will prevent dust build up and most marks can be cleaned with a mild detergent solution followed by rinsing and blotting. Stains should be dealt with according to the chart below.

Before carrying out a proposed cleaning method, apply to a concealed section to ensure it will not affect the product or adhesive. Avoid cleaning methods that create severe abrasion. NB: Solvent and mineral based cleaners should be used sparingly to avoid possible degradation of the adhesive adhering the product to the substrate.

Professional Cleaning Methods

Stain	Treatment Guide
Blood	A, C
Burn/Scorch Mark	K
Chewing Gum	I, B, D, C
Chocolate	B, D, C
Cooking Oils	B, D, C
Crayon/Colour Markers	B, D, C

Paint (oil based)	A, H, D, C
Sauces	B, C, D
Shoe Polish	B, C, D
Urine	A, C
Vomit	A, C, D
Wine	A, Add Salt, C

Key

- A** Mop up excess as soon as possible with a sponge or cloth.
- B** Remove surplus with a knife edge or appropriate instrument.
- C** Sponge with a solution of carpet shampoo working from well outside the stain in a circular motion towards the centre (this avoids spreading the stain). Sponge afterwards with clean warm water and mop excess moisture with a clean dry cloth or sponge. Allow to dry then brush gently with a soft brush. If any stain remains, sponge with a solution of one part household bleach to six parts clear water. Thoroughly rinse after treatment.
- D** Lightly sponge with household dry cleaning fluid and blot. Apply sparingly, as the substance may have an adverse effect on the adhesive.
- E** Sponge with methylated spirits and blot dry.
- F** Lubricate the stain with glycerine or petroleum jelly.
- G** Apply nail polish remover. The nail polish remover should not include lanolin or be of a greasy nature.
- H** Sponge with turpentine (or substitute).
- I** Freeze with ice cubes and scrape away while cold.
- J** Clean with regular extractive carpet cleaner (if possible).
- K** Use circular cutter and remover damaged portion. Re-glue new piece into place.

Please contact us for a detailed installation guide.
