

TEAM | LET'S CONNECT

Meeting rooms are always in demand, create more quiet meeting spaces with shared walls to utilise the space to its full potential.

RATED AT
36DB NOISE
REDUCTION

PHONE BOOTH | LET'S TALK

With 36dB rating our phone booths create the private haven required for those important calls as well as minimising noise pollution and disturbance to colleagues.

SOLO | FOCUSED CALL

Create the right level of visual privacy by incorporating manifestations on the swing glazed door, and enhancing with a door lock.

HOOZONE | PHONE BOOTHS

The modern open plan office has seen the rise in the demand for single phone booths due to the necessity to find a quiet, focused space for a call. Rather than occupy a meeting pod or a side room, a phone booth offers a simple, acoustic solution with the small 1m² footprint, making it an ideal space saving addition to the office.

The phone booth is supplied as a complete unit with sound absorbing panels and ceiling, an integrated MFMDf black floor, and dual air circulator fans for optimised air flow. Available in a multitude of finishes to complement the surroundings or stand out as a focal product.

SOLO | FOCUSED WORK

Phone booths can be enhanced by adding seating, shelves, power, door manifestations and outer cladding for your complete solution.

- 1 SOUND ABSORBING CEILING & COVER**
52mm soft feel ceiling tiles upholstered in light grey
- 2 DUAL LED STRIP LIGHTING**
High output-low voltage, diffused, dual LED strip lighting
- 3 SHELF**
25mm thick MFC or plywood integrated shelf with bracket
- 4 SWING DOOR**
Clear glazed swing door
- 5 INTEGRATED FLOOR**
Black MCMDF floor
- 6 SOUND ABSORBING PANELS**
55mm soft feel sound absorbing panels
