## Atrium

### Overview

Atrium is a multi-occupant work booth system designed to bring focus, collaboration, and comfort into open environments. Created for small group meetings, teamwork sessions, or focused collaborative work, Atrium provides a defined space that supports productivity without isolating users from the wider workplace. Built on more than two decades of combined expertise and years of dedicated research and development, Atrium carries forward the same impressive acoustic performance as its single-user counterpart, Mura, achieving an average noise reduction of 36dB.

# Atrium Key Features

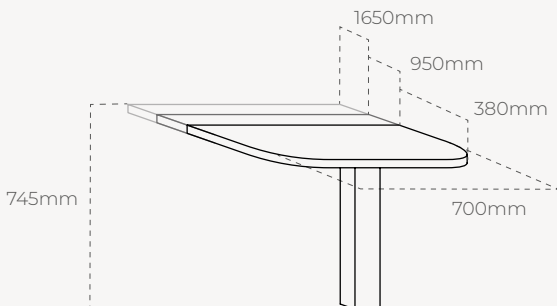

## Atrium Seat

The seats in an Atrium booth are designed with prolonged work in mind making them ergonomic and comfortable.

The seat itself measures:

**W:** 620 / 1320 / 2020  
**D:** 525  
**H:** 910  
**SH:** 450

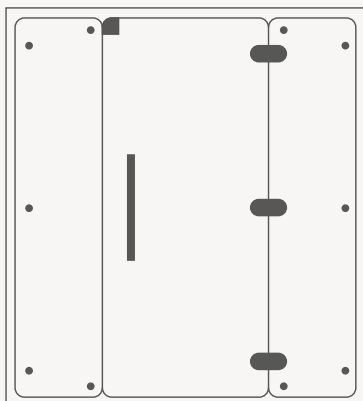

## Atrium Table

The Atrium booth tables are constructed from resilient, high-quality MFC in a number of finishes and offer ample working space for every-day use.

The table itself measures:

**W:** 700  
**D:** 380 / 950 / 1650  
**H:** 745

## Atrium Glazing

The Atrium glazing spans nearly the full width and height of the booth offering complete coverage, ensuring the acoustic properties of the booth without completely isolating the user.

The glazing is held in place with a series of 10 carefully engineered fixings while the door is held shut with a gentle magnetic catch for easy and consistent usage.
