

SOLINI

Solini is a Credenza collection designed to provide a storage solution for any office environment. Designed as a configurable piece, Solini can be specified to the exact requirements of the space and user. Offering a variety of finishes, colours and detailing options, the piece can subtly blend into any setting or provide a statement with contrast tones and textures.

Design

Our Design Team approach each project with creativity and functionality at the heart of the brief. The team represent the companies' ambition to create and bring to market products of the highest quality, whilst paying close attention to the small details that make a product both memorable and distinguishable.

Based in our Banbury office, the team work with all departments within the business and our manufacturing partners to consistently deliver every piece with the original vision and direction imagined during the product's inception.
